Approximate- 6-7 oz. Full Grain leather with 4-5 oz. Full Grain lining or 3-4 oz suede lining (Suede color will vary according to what I have in stock, but will always look great with the color of finish you have selected.) **Coloring choices- Saddle Tan (may vary from Light tan to a darker tan depending on how the hide takes the oil), Mahogany, Dark Brown, or Black. All oil colors are hand rubbed. Coloring can vary on each leather product. I normally make each of your rigs from the same hide, but even within the same hide, there can be variances due to characteristics of the leather grain, minor blemishes etc. All of the leather is the very best Full Grain Cowhide selection available.**
